LETTER OF INSTITUTIONAL SUPPORT

For the implementation of project proposal: CATIA EAC-A02-2019

Dear Sirs/Madams,

On behalf of the Liepāja city council, I would like to express the endorsement by writing this letter of support of the project proposal CATIA EAC-A02-2019 being submitted to the ERASMUS + Call ID: EAC-A02-2019 by Liepāja University.

We are convinced that the challenge-based approach when transforming the institutional cooperation and tackling societal challenges will drive innovation and will act as catalysts to stimulate progress in Europe's multi-cultural landscape on regional level.

We highly endorse the closer work of Liepāja University with our regional eco-system and being part of the latter Liepāja city council confirms that we are very interested in participating and benefiting from the proposed activities.

We understand that the Liepāja University team invites us to join the Alliance intended to provide a stronger impact on tourism and culture on regional level, as associate partner, without any financial commitments from our side and we are hereby confirming that we are happy to assign the necessary time in the Alliance, and also participate in the project related activities when possible.

We confirm that we are very interested in participating, contributing and benefiting from the proposed Alliance.

Yours sincerely,

Jānis Vilnītis
Mayor of Liepāja
